

CAVARE

SHOCK TOOL HBI525-ST

The HBI525-ST was designed with current day drilling technologies and practices in mind. The size of the tool will allow numerous API connections to specification as well as maximum torque to be compatible with all BHA requirements. Also, the HBI525-ST is the only Shock Tool that offers a larger I.D. than any other tool to make sure that excess pressure in the drill string will not be an issue when this tool is incorporated into the BHA.

Size	ID	Stroke	Max WOB	Max Over Pull	Length	Threads
